EDUCATION

Bachelor of Computer Science

Concordia University, Montreal, QC

09/2026 - Present

DEC in Computer Science Technology

Dawson College, Montreal, QC

08/2023 – 05/2026

EXPERIENCE

Software Developer Intern, Fixed Income | TS Imagine

Spring Boot, React, TypeScript, MariaDB, Docker, TeamCity

Montreal, QC | April 2026 – July 2026

- Modernized **3 legacy Java services** by migrating outdated frameworks and dependencies to **Spring Boot microservices**, improving maintainability with the company's modern application architecture.
- Developed features for the Fixed Income **Order Management System (OMS)**, including **Server-Sent Events (SSE)** to deliver continuous real-time order updates to the frontend.
- Built **15+ reusable React/TypeScript components** for an internal component library adopted across company applications, standardizing UI development and reducing duplicated implementation work.
- Created a reusable **Claude Code skill** from **40+ curated migration prompts** and workflows, enabling developers to apply established patterns and accelerate subsequent legacy microservice migrations.

PROJECTS

Ramifie.com | Daily Crossword Puzzle Web App

React, JavaScript, Tailwind CSS, Cloudflare Pages, AWS Lambda

Miami, FL | 06/2025 – Present

- Built a daily crossword-puzzle web application used by 50+ recurring players.
- Accelerated responsiveness, with ~60% fewer dictionary checks and consistent 120ms UI validation.
- Implemented a serverless AWS Lambda for puzzles and deployed via Cloudflare Pages + GitHub CI/CD.

Hair Salon Appointment Web App

React, Flask, PostgreSQL, Docker, JavaScript, Python, Git

Montreal, QC | 04/2025 – 05/2025

- Collaborated with a 2-person development team to build and deploy a full-stack appointment and reporting system using React, Flask, PostgreSQL, and Docker.
- Developed a role-based admin interface for managing users, appointments, and system logs.
